CRUISE REPORT

Ship Name: CONRAD

Cruise No: C21-08

Departure: May 10, 1978 from Valparaiso  
Date Port

Arrival: May 19, 1978 at Panama  
Date Port

Days at Sea: 10 Days Foreign Port: 8 No. of days in arrival port

Area of Operation:

Transit from Valparaiso to Panama

Program Description:

Underway geophysics

Participants: (All L-DGO unless otherwise specified)

S. Cande  
R. Rottier  
W. Robertson  
M. Iltzche  
D. Keizer.

Chief Scientist  
E.T.  
E.T.  
Airgun  
Core bosun

All inquiries regarding cruise should be made to the chief scientist.

## CRUISE REPORT

C21-08 left Valparaiso, Chile on May 10th and arrived in Panama on May 19th. This cruise was a transit leg and the track was the shortest route between the two ports. Magnetism, gravity and topo data were collected along the entire leg, while seismic profiling data were collected for the first five days. Profiling was suspended when it was decided that the quality of the data (only fair due to the high transit speed of 12 knots) did not justify the wear on the equipment (which was excessive due to the high towing speed).
