Re: Magnetics Data Acquired during Ida Green 29-1 Cruise

The actual amount of magnetics data acquired during IG 29-1 was sparse due to large amounts of down time for repair work on the magnetometer. Data recorded in the "Magnetics Log" sheet format occurs during these times and dates:

05 June 1978 to 07 June 1978
0025 Z 1340 Z

Data recorded in "Chart Record" format occurs during these times and dates:

10 May 1978 to 11 May 1978 04 June 1978 to 07 June 1978
2300 Z 0500 Z AND 2318 Z 1630 Z

Actual duration of days for IDA GREEN 29-1 is 10 May 1978 to 07 June 1978, with a short port stop in Limon, Costa Rica from 31 May to 02 June to pick up parts and supplies.
